## Versatility & Superior Products

Since 1972, Time Laboratories has been a leading manufacturer of specially formulated phyto-aromatic and nutritional support products, supplying naturopaths, chiropractors, massage therapists, aestheticians, and other holistic practitioners.

Salons & Spas  
Wellness Centers

For over 35 years we have specialized in custom product development and consulting services to the natural health care industry. Time Labs offers a wide selection of quality product lines with the ability to service retail, wholesale, health professional, and private label accounts.

## From the Source

From our manufacturing facilities in California and Idaho we formulate, produce, and distribute our products. As an Independent Sales Representative you represent the finest phyto-aromatic products directly from the source.

You communicate directly with our friendly staff within Time Labs. We ship directly to your customers, eliminating the need to carry inventory.

Private Label &  
Custom Development

Sell full time, part time, or as a second income

We produce natural care and nutritional products to enhance almost any holistic business or service. You select those products best suited for your specific interest or business.

Holistic Clinics &  
Practitioner Groups

Select from our extensive line of phyto-aromatic skin, body, and spa care, genuine and authentic aromatherapy (including base products and accessories), the children's collection, and a full range of specially formulated nutritional support products.

Also, being a manufacturer, we can supply your customers with bulk sizes from every product category. The choice is theirs.

## Industry Trends

Current economic forecasts see the health & wellness industry remaining vibrant in numerous markets. In this multi-billion dollar industry, people continue to spend on holistic health care, especially supplements, organics, and a wide range of phyto-active & anti-aging products and services. To survive long-term, however, a company must have sound basic characteristics demonstrated to endure uncertain economic times.
